## TELEGRAPHIC NEWS

## The Star Route Case.

New York, 13.—Herald editorial: It is worse than a waste of time for the Star route defense to call witnesses to the stand day after day to testify to the growth of the waste country and its need of improved postal facilities. The prosecution might safely admit all that the defense has yet undertaken to prove and would save time and money to government by doing so. The defendants are arraigned for conspiring to rob government. They are charged with gigantic frauds. The prosecution has piled up proofs of a most specific direct and damaging kind. This evidence can be successfully met only by contradictory testimony, equally specific, direct and to the point. If the defense is able to produce any such testimony, let them produce it now. If not able to do it in the case to the jury. The most damaging witness against the defendants is Herdell. If Herdell's story is a brazen piece of perjury from beginning to end, as the jobbers vehemently declare it to be, that fact can be shown by the evidence of Dorsey and Brady, and the production of Dorsey's books. This testimony would be to the point, but accounts, however glowing they may be to the recent development of the far western states and territories, furnish no answer to specific proofs that defendants have systematically defrauded and plundered government.

## Barry's Feat.

New York, 13.—Cleveland and New York were connected by telephone for several hours yesterday afternoon. Gentlemen in the office of the postal telegraph company in New York, spoke and sang before the improved telephone. The party in the Cleveland office did the same, and their voices were more distinctly heard in New York than usually the case between connected telephones in this city. Professor Bluhm, inventor of the telephone, and patentee of the harmonic and other devices in use in the postal telegraph system, conducted the experiments. He said their success was due to the superior conductivity of the compound wire in use, composed of a steel core surrounded by copper. James R. Keene was one of the party, and conversed with friend who had been called into the Cleveland office to meet him.

## Mexican Property Valuation.

New York, 13.—Herald editorial: The treasury department of Mexico has just published an official valuation of landed property in the republic, that puts its total at upwards of \$3,000,000,000, of which nearly two-thirds are credited to urban estates, one-fourth to rural estates, and the remainder (exclusive of property devoted to religious uses) to estates pertaining to government. The precise divisions in these subdivisions are \$1,901,638,000, \$772,000,000 and \$340,000,000; total, \$3,013,638,000. This is by far the fullest and most trustworthy assessment list ever compiled in Mexico, and although it falls far below the actual value of property, the discrepancy is not much greater than occurs in official statistics of our own highly civilized state of New York.

## St. Patrick's Day.

New York, 13.—At the convention of the Irish societies last night it was announced that the following orders and societies will take part in St. Patrick's day parade: 49 divisions of the Ancient Order of Hibernians, four divisions from Long Island City Irish National League, St. Columbus Temperance Society, Hibernian Rifle Corps, St. Columbus Rifle Corps, St. Patrick Mutual Alliance Corps of the 68th regiment which will be about 550 strong.

## No Milk.

New York, 13.—The Times announces that there will be no milk for the city after to-day, Orange County producers having resolved to stop the supply till the city dealers are brought to terms to save the former from loss.

"DR. BENSON'S Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

## Bully for Butler.

Boston, 12.—A committee of the Emmett Guard of Worcester, an independent military company, not attached to the state militia, appeared before the governor, to-day, with a petition for permission to parade under arms on the 17th of March. The governor read it and without saying a word wrote the following endorsement on the back of the petition: "The right of the people to keep and bear arms shall not be infringed." B. F. BUTLER, commander in chief.

## Workingmen.

New York, 13.—The Sun says: More than 10,000 persons attended the concert and ball in Madison Square Garden last evening, under the auspices of the Central Labor Union, forty-two trades unions and labor societies, and the Workingmen's Co-operative Publishing Association, in aid of the fund to establish a daily newspaper. Nearly every man in the building was a workingman.

BEAUTIFUL skin, and fair complexion, robust health, and powers of endurance, follow the use of Brown's Iron Bitters.

## Cave In.

Deadwood, D. T., 13.—An extensive cave in occurred in the Highland Mine here. The miners all managed to escape uninjured except one, who was fatally hurt.

## Another Claim.

New York, 13.—It is said Robert T. Bradford, of Tomkinsville, Staten Island, and his relatives lay claim to \$55,000,000 now in the Bank of England, as heirs of John Bradford, of Yorkshire.
